

## Special Issue "Social and Technological Interactions in E-societies"

Deadline for manuscript submissions: **1 December 2022**

### Special Issue Information

Dear Colleagues,

In recent years, we have witnessed major transformations in the ways that individuals and organizations interact with one another, whether in personal, professional, or societal contexts. The adoption of new technologies, mobile services, the widespread use of the Internet, social media, artificial intelligence, robotics, virtual reality, and the Internet of Things, among many other technologies, have led to diverse and transversal changes in many processes in our organizations and society.

Because of this digital transformation, today's society has become an E-society, a community noticeably characterized by E-government, E-democracy, E-business, E-learning, E-health, and many other digital services.

However, how is this new form of interaction impacting society, organizations, and individuals? What are the technical and non-technical aspects to consider in an E-society? These are questions that must constantly be answered, as the level of digitization and transformation evolves into new processes or into new domains of society.

Thus, this Special Issue intends, in a transversal way, to publish a collection of scientific contributions that address these aspects in the various domains of an E-society. Contributions must fall into one of the three categories of papers for the journal (article, conceptual papers or reviews) and address the topic of this Special Issue.

Prof. Dr. Rui Pedro Marques  
*Guest Editor*

### Manuscript Submission Information

Manuscripts should be submitted online at [www.mdpi.com](http://www.mdpi.com) by **registering** and **logging in to this website**. Once you are registered, **click here to go to the submission form**. Manuscripts can be submitted until the deadline. All submissions that pass pre-check are peer-reviewed. Accepted papers will be published continuously in the journal (as soon as accepted) and will be listed together on the special issue website. Research articles, review articles as well as conceptual papers are invited. For planned papers, a title and short abstract (about 100 words) can be sent to the Editorial Office for announcement on this website.

Submitted manuscripts should not have been published previously, nor be under consideration for publication elsewhere (except conference proceedings papers). All manuscripts are thoroughly refereed through a double-blind peer-review process. A guide for authors and other relevant information for submission of manuscripts is available on the **Instructions for Authors** page. *Societies* is an international peer-reviewed open access semimonthly journal published by MDPI.

Please visit the **Instructions for Authors** page before submitting a manuscript. The **Article Processing Charge (APC)** for publication in this **open access** journal is 1400 CHF (Swiss Francs). Submitted papers should be well formatted and use good English. Authors may use MDPI's **English editing service** prior to publication or during author revisions.
