

Special Issue "Social Interactions and the Technology Development: Perspectives on E-societies"

Deadline for manuscript submissions: **30 November 2022**

Special Issue Information

Dear Colleagues,

There are tremendous challenges that our society faces, launching hopes and concerns alike. New technologies open avenues to digitalization as well as optimism for better lives and opportunities for all of society's participants. Concomitant environmental constrains, health issues or security threats increase fears concerning the sustainability of our approach to production, mode of consumption, style of life or way of government. New types of interactions emerge between society's participants, shaped by new technologies.

This issue of *Societies*, called "*Social and Technological Interactions in e-Societies*", aims to analyze the interactions that emerge in society under the pressure of rapid changes posed by new technological developments, to look at the way that the social and technological dimensions of these interactions can improve the sustainability of our society as well as unveil the impact of digital technologies on the behaviors and processes of individuals and organizations.

The articles and conceptual papers for this issue include, but are not limited to, the following topics:

- Digitalization and new technologies of society.
- Sustainability and resilience of e-society.
- Governing society in the digital era.
- Social changes in e-society: human and artificial intelligence interactions.
- Doing business in e-society.
- Learning in e-society.

(*Contributions have to follow one of the three categories of papers (article, conceptual paper or review) for the journal and address the topic of the Special Issue.)

Prof. Dr. Rodica Milena Zaharia

Prof. Dr. Tudor Edu

Prof. Dr. Razvan Zaharia

Guest Editors

Manuscript Submission Information

Manuscripts should be submitted online at www.mdpi.com by **registering** and **logging in to this website**. Once you are registered, **click here to go to the submission form**. Manuscripts can be submitted until the deadline. All submissions that pass pre-check are peer-reviewed. Accepted papers will be published continuously in the journal (as soon as accepted) and will be listed together on the special issue website. Research articles, review articles as well as conceptual papers are invited. For planned papers, a title and short abstract (about 100 words) can be sent to the Editorial Office for announcement on this website.

Submitted manuscripts should not have been published previously, nor be under consideration for publication elsewhere (except conference proceedings papers). All manuscripts are thoroughly

refereed through a double-blind peer-review process. A guide for authors and other relevant information for submission of manuscripts is available on the **Instructions for Authors** page. *Societies* is an international peer-reviewed open access semimonthly journal published by MDPI.

Please visit the **Instructions for Authors** page before submitting a manuscript. The **Article Processing Charge (APC)** for publication in this **open access** journal is 1400 CHF (Swiss Francs). Submitted papers should be well formatted and use good English. Authors may use MDPI's **English editing service** prior to publication or during author revisions.
